

NISSAN FINANCIAL SERVICES

Dear Joanne

CE Incentive - Earn 1000 AC Credits in AC16!

Nissan Ambassador Club and NFSA are pleased to announce the launch of our CE Incentive to drive your participation within the Dealership. Stemming from the Sales Survey question to the customer:

"Were you offered an explanation of the finance and insurance options available at the dealership?" Y/N

If the customers answer YES, they are then asked:

"How satisfied were you with the explanation of the finance and insurance options available at the dealership?"

Your role as an F & I Manager is a vital link in the Sales Process. This is an opportunity to assist the customer in a value-adding and meaningful way as they seek to purchase their vehicle. By providing a professional Finance and Insurance solution you cement the relationship with a customer and ensure they have made a responsible purchase.

As the Sales Consultant builds value in the vehicle during the sales process, where possible a brief early greeting or at least recognition of the F & I Manager and available solutions can greatly assist a smooth transition to a professional handover to F & I later on.

We urge you to work with the Sales Team towards positive F & I and Customer outcomes and help them understand the importance of F & I in building trust during the sales process.
